

DESCRIPTION

PRODUCT COVERED:

USL, CNL - Low Voltage Float Switch, Model EZT200 Series - may be followed by additional numbers.

ELECTRICAL RATINGS:

4 A, 24 Volts, 50/60 Hz General Purpose

Environmental Rating - Type 1

40°C ambient

GENERAL:

This device is used to interrupt the Class 2 control power in heating and air conditioning systems. It operates by switching off the AC system by interrupting the 24 Volt control circuit (and/or sounding an alarm) when it detects a rise in water level caused by blockage in the condensate drainage system.

ENGINEERING CONSIDERATIONS (NOT FOR UL REPRESENTATIVE USE):

Note: CNL = Canadian National Standards - Listed
USL = United States Standards - Listed

CNL - Indicates investigation to Canadian National Standards C22.2 No. 14-95 and No. 142-M1987
